Montgomery and Bowness Community Art Collective

Second, Annual
art!Bowmont: “Art in the Park”

September 10th, 2011
1-4pm, Shouldice Park

It’s that time of year! Time to start thinking of BBQ’s, outdoor activities and of course **art!Bowmont’s** second, annual **“Art in the Park”**. Our 2010 show was hugely successful thanks to all of the community support and some beautiful weather. This year **art!Bowmont** will bring new and unique artistic pieces such as paintings and sculptures to relate and interplay with the fantastic outdoor landscape and colour.

art!Bowmont is an Artist Collective comprised of individuals of the visual arts community living in the Montgomery and Bowness areas of Calgary. Founded by painter Joan Shearer in 2009, **art!Bowmont** members strongly believe in community based projects and sharing creative ideas, aspirations and artistic challenges. What makes us unique is that we are a group of artists unified by intent rather than style. Each artist within the group embraces a totally distinctive style, using diverse mediums and approaches to produce their equally striking works of art.

Our members are: **Joan Shearer**, a painter with a whimsical approach who uses line and bold colour to express her artistic ideas. **Ron Robinson**, an artist working in mixed media and sculpture and regularly has home studio shows. **Neil Liske**, who calls himself a “mud-slinger”, is a highly talented sculptor and ceramicist. **Nikki Gour** is a mixed media, glass painting and metal work artist with an uncanny way of putting materials together to create complex and multi-dimensional pieces. And introducing our newest member **Marie-Helene Bilodeau**, who takes photographs of authentic scenery with their emotional and natural element exposed, using the natural changing light of day.

Come celebrate the second, annual **art!Bowmont: “Art in the Park”** in Shouldice Park on **Saturday, Sept 10th, 1-4pm**. It will be a big and beautiful outdoor gallery.
